Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the prior arts of record fail to teach a polarization filter for high frequency waves guided in a waveguide, comprising: an entry section in which two orthogonally polarized wave types are capable of propagating; two first exit sections for propagating one of the wave types and extending along an extension of the entry section; a planar septum for separating the two first exit sections; and, two second exit sections for propagating the other of the wave types and extending laterally in a plane of the septum, the two second exit sections being coaxial conductors.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
